To Depository Institutions and Others Concerned in the
Twelfth Federal Reserve District

Attached is an amendment to the rates of interest on advances and discounts in the Twelfth Federal Reserve District. The attachment, which is effective December 15, 2016, reflects an increase from 1.00% to 1.25% in the basic discount rate that applies to short-term primary credit advances.

You may obtain additional information about our rates of interest online at our Discount Rate page.

1 The Board of Governors announced on December 16, 2015 that changes in the target federal funds rate and administered interest rates, including the primary and secondary credit rate, will be effective on the day after the Federal Open Market Committee (FOMC) policy decision. Previously, changes became effective on the same day as the policy decision. Please see the press release from the Board of Governors for additional information.

2 A flexible rate that takes into account rates on market sources of funds is applied to seasonal credit.
