**BANKING SUPERVISION AND REGULATION:
NEW DATA DOWNLOAD APPLICATION**

To State Member Banks, Bank
Holding Companies, U.S. Branches
and Agencies of Foreign Banks,
and Others Concerned,
in the Twelfth Federal Reserve District

New Data Download Application

The Federal Reserve Board announced its new Data Download application, which provides interactive access to Federal Reserve statistical data in a variety of electronic formats. Data Download is the first application to allow custom data packages to be created in SDMX-ML, which is a technical statistical data standard that is gaining support among central banks and statistical agencies.

The Data Download application delivers customized data sets in machine-readable electronic formats including Excel, CSV, and XML; and, also allows for quick downloading of formatted data packages.

Data from the following four releases are now available:

- Industrial Production and Capacity Utilization (G.17)
- Flow of Funds Accounts of the United States (Z.1)
- Commercial Paper
- Selected Interest Rates (H.15).

The SDMX-ML technical standard was developed by the Statistical Data and Metadata Exchange (SDMX) initiative under the governance of the Bank for International Settlements, the European Central Bank, World Bank, International Monetary Fund, Eurostat, the United Nations, and the Organization for Economic Co-operation and Development.

To view the new Data Download application, please visit the Board's website at <http://www.federalreserve.gov/datadownload/>.

Additional Information

All circulars and documents are available on the Internet through the Federal Reserve Bank of San Francisco's Internet site, at <http://www.frbsf.org/banking/letters>.

For additional information about the new Data Download application, please contact our Banking Supervision and Regulation Department at (415) 974-3003.
