“The Economy - What’s really going on?” - An update on the global economy and its impact on your financial institution.

Ray Squitieri, Financial Economist, OCC International Analysis and Banking Conditions

“The Interagency Questions and Answers”- An opportunity to discuss the updated Q&As and how they may affect your institution.

The financial services sector is fluctuating daily. Come join us for updates with subject experts who will share their perspectives on two topics that affect your ability to navigate the “choppy waters” of today’s CRA compliance requirements. This session will be interactive with expanded opportunities for questions and answers.

We will also hear a Utah Legislative Update on some of the impacts to the LMI population.

Please share this invitation with others at your financial institution that may be interested.
