National Trends

According to John Williams, Director of Research at the FRBSF, the economic outlook is for a slow and modest recovery:

- Unemployment still a major concern, and unlikely to see significant drops in the unemployment rate in the next year.
- While the housing market appears to be stabilizing, recovery is muted, and construction starts and home sales are both down in the most recent period.
- Growth of real gross domestic product (GDP), the broadest measure of the strength of the economy, is hovering around 2 percent in the current quarter.

- Large “shadow” inventory of properties in delinquency or some stage of the foreclosure process also remains a concern.

Conclusions
Continued Need for Foreclosure Prevention

- Important to reach borrowers with ‘preventable’ foreclosures
  - Borrower Outreach Events
    - Create a foreclosure prevention workbook -- for an example see Arizona’s:
  - Making Homes Affordable
    - Federal program provides both loan modification and refinance options
    - Online form available that allows borrowers to assess if they qualify for the program

Preventing Foreclosure Scams

- Foreclosure scams are proliferating, especially in markets with investor interest
  - Some counties are sending notices to all delinquent borrowers to warn them about foreclosure scams
  - Free media kit available from the Federal Reserve which includes a PSA and other resources:

Stabilizing Communities and Helping Families After Foreclosure

- Develop service delivery and resources for families who go through foreclosure
  - Rental housing assistance
  - Credit repair
  - Minimizing disruption for children (e.g. allowing them to finish the school year in their old school)

- Minimize negative spillover effects of vacant properties on surrounding neighborhood
  - Ensure servicer maintenance of REOs
  - Work with lenders/servicers to acquire and rehab foreclosures for affordable housing
