TRENDS IN DELINQUENCIES AND FORECLOSURES IN IDAHO

January 2010
National Trends

- Signs that the economy is starting to grow and move out of the recession
  - GDP positive for the first time since start of 2008
- Major weaknesses still exist in the housing, labor, and credit markets
- Foreclosures continue to rise
  - Although the HAMP program has succeeded in reaching 728,408 distressed borrowers (as of November 2009), few of these modifications have been made permanent and scale still falls significantly short of need.
