# Labor Force Participation Rates

Monthly percentage values, seasonally adjusted, through November 2017

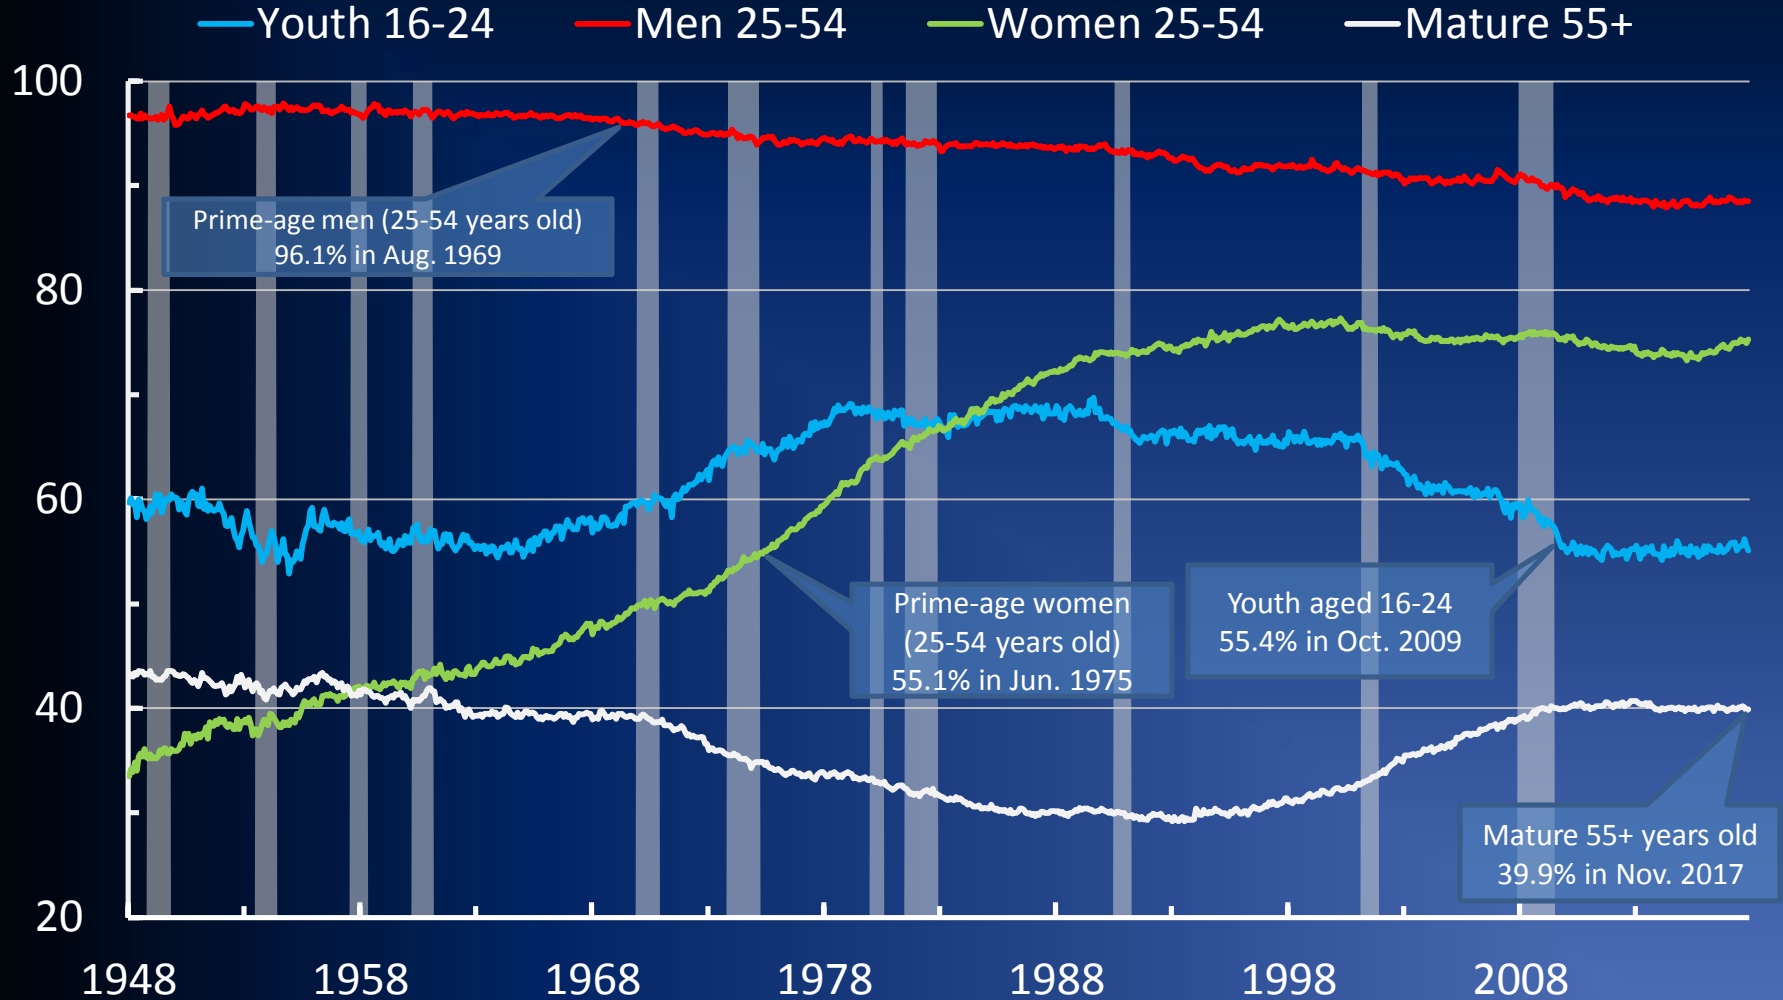

Source: Bureau of Labor Statistics

# Annotated Chart Notes

## Labor Force Participation Rates

The percentage of the age 16+ population (within each subgroup shown) working or actively looking for work

Monthly percentage values, seasonally adjusted, through November 2017

Source: Bureau of Labor Statistics

# Overall Labor Force Participation Rate

Yearly averages of monthly values\* (Percent)

Sources: Bureau of Labor Statistics & Congressional Budget Office

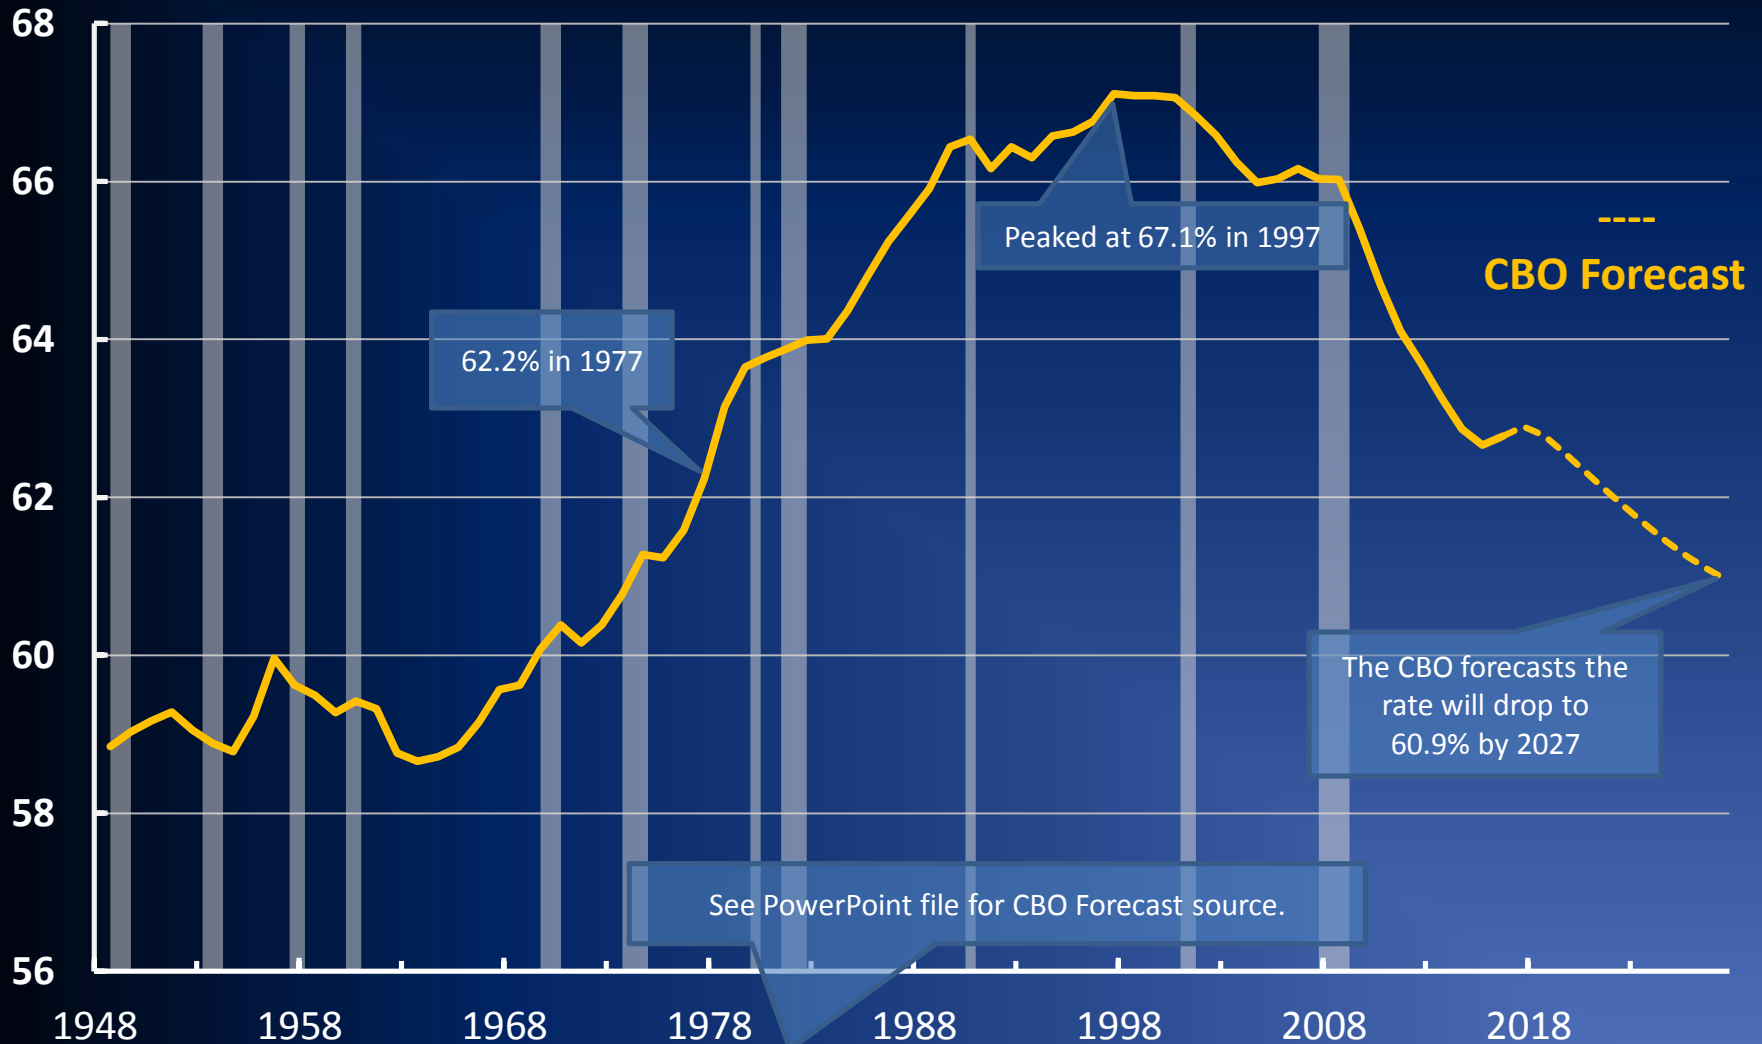

\*Labor force participation rate data through 2016, with CBO forecast covering 2017-2027

# Annotated Chart Notes

## Overall Labor Force Participation Rate

The fraction of the age 16+ population working or actively looking for work

Yearly averages of monthly values\* (Percent)

Sources: Bureau of Labor Statistics & Congressional Budget Office

\*Labor force participation rate data through 2016, with CBO forecast covering 2017-2027

See PowerPoint file for CBO Forecast source.

CBO Forecast

The CBO forecasts the rate will drop to 60.9% by 2027

# What Do You Think?

1. What is the labor force participation (LFP) rate definition? (See slide 5)
2. To which demographic group do you belong? In January 2008, what was the approximate value of the LFP rate for your group? (See slide 2)
3. For the periods shown in the LFP rate chart by subgroup, what can you say about the trend for participation among men aged 25-54? Women aged 25-54? Youth aged 16-24? (See slide 3)
4. How would you describe the trend in the overall LFP rate since January 1998? (See slide 4)
5. How does the trend in the LFP rate for the mature 55+ subgroup compare before and after the Great Recession (Dec. 2007 – Jun. 2009)? (See slide 3)
